## PROFESSIONAL EXPERIENCE

---

### Emergency Medicine Physician Assistant

Presbyterian Healthcare Services

10/2023-Present

Albuquerque, NM

- Employed by a hospital group to staff five different Emergency Departments, including the main emergency room and fast track, ranging from 25 to 55 beds in hospitals, freestanding, and urgent care facilities.
- Conduct a variety of procedures, such as simple and complex laceration repair, orthopedic splinting, joint aspiration, regional block anesthetics, reduction of joint dislocation, and incision and drainage (I&D).
- Responsible for obtaining patient history and conducting physical exams, organizing a comprehensive differential diagnosis, and meticulous documentation.
- Formulate detailed treatment plans, which involve ordering and interpreting diagnostic studies.
- Appropriately consult with specialists, particularly in cases requiring orthopedic surgery expertise.
- Effectively communicate results and care plans to attending physicians, patients, and their families.
- Coordinate patient care, ensuring a seamless transition between hospital admission or outpatient follow-up.

### Emergency Room Trauma Technician

Boulder Community Health

2017-2020

Boulder, CO

- Perform orthopedic splinting, wound care, CPR, obtaining vitals, and discharging. Duties included placing IV, Ultrasound-guided IV, and IO catheters.
- Assisting physician procedures such as conscious sedation for orthopedic reductions, emergent ETT intubation, CVC placement.

---

## Pertinent CLINICAL EXPERIENCE

---

Five-week clinical clerkship rotations under the supervision of MD and PA preceptors.

- Collaborated with orthopedic trauma surgeons and residents in the operating room, providing assistance during open reduction and internal fixation (ORIF) procedures for traumatic fractures.
- Supported pre-operative tasks, ensuring the efficient preparation of patients for surgery.
- Conducted post-operative rounds on trauma patients, implementing care plans in collaboration with the orthopedic Physician Assistant
- Assisted the joints and sports medicine PA in both outpatient clinic and the operating room, particularly during procedures such as shoulder replacements and ACL reconstructions.
